Saturday 5th June – 2.00pm to 3.00pm – Heart Storm

Becoming...Inspired Action

Heart Storm sessions are a great way of unfolding new potentials together - exploring seeings, arising passion and unlocking gifts we didn't even know we had. With the practice of The Form taking us deeper into the unknown and opening our radiant self the Heart Storm sessions are a way of coming together and exploring Becoming through inspired action.

This weeks Heart Storm we are looking at how we can raise awareness of The Form in the Netherlands and of the Centre.

For instance I, (Lisa) am now involved with an internationally aware organisation in the Hague called Connecting Women, and its a great opportunity to not only meet so many different women, but share about The Form and the Centre. We also had a beautiful meeting yesterday with Peter who some of you may know from our Form Courses and he is inspired to help support as a Festival Coordinator and liasing with festivals to see if we can share The Form there and raise awareness that way...and have fun in the sun together which is great!

We would love for you to be involved in whatever way inspires you and bring your gifts, your hands and your feet to creating something really soul nourishing and bringing to life the potential of the Centre and The Form. YES! Come along, let us know what you see.
